Dave,

EPA is reviewing your request regarding the indirect rate issue and is in the process of calculating any changes to the amount demanded of \$403,734.76 in the February 26, 2015, bill. We will provide you with information regarding the revised actual amount due. Therefore and as requested, a 15-day extension from the original due date for payment of costs is granted.

If you have additional questions, please let me know.

Thanks.

Thank you for the follow-up Doretha.

Following our discussion today, it appears that the indirect rate for FY 2013 and 2014 changed between the July 29, 2014 bill and the February 26, 2015 bill. However, the adjustment of \$62,986.62, which calculates the 50% reduction (including indirect costs), did not change.

As we are drawing near to the invoice due date, we are looking to confirm the actual amount due and inquire of the EPA's ability to extend a brief extension as this issue is sorted out.

Thanks in advance

dave

Hi,

I was out of the office last week and unable to respond. I returned your call and left you a voice mail message on yesterday. I am available to discuss with you on Wednesday at 2:00 pm central time. Please confirm if this will work and call me at the number below.

Thanks.

Dear Ms. Christian,

International Paper and McGinnes Industrial Maintenance Corp. have a few questions regarding the calculations contained in USEPA's February 26, 2015 Demand Letter. Can you advise when you would be available for a telephone conversation with Dave Moreira and myself?

Thanks!
